# High surface finish as basis for strong design

Individual solutions for individual requirements

This Layout and Model Making Machine, machine concept specially developed for the design applications of the automobile industry, meets

highest demands with regard to rigidity, dynamics and thus, in the end, to accuracy, precision and surface finish.

## Performance features

- Milling spindle: 15 kW and 24,000 rpm
- Travel axis distances X/Y/Z-axis: 7,000 / 2,500 / 1,500 mm
- Travel speed X/Y/Z-axis: max. 40 m/min
- Rotary indexing table: 0°/180°
- Controller: Siemens 840D sl or Heidenhain iTNC
- Simple chip management thanks to machine stand integrated in the hall floor

Additional equipment options of power components as well as information regarding application possibilities are available on request.
